ADVANCED NARCOTIC DETECTION

Problem Solving and Scenario Based Workshop

What information will be covered?

The course will cover detailing, leash work, pattering, and scent theory. We will also work on individual problems and how to develop a quality focus.

We will provide a hands on approach to solving individual problem.

Attempts will be made to place teams into scenarios and situations that may test the handlers and canines abilities.

Class limited to 25 teams

Cost is \$235.00 per team
