Convoy to Howe, Idaho

Times: Daily 07:30-18:00

For payment Contact Rangetechnology.us at rangetechus@gmail.com

Course Objectives: High Angle Shooting, improvised positions, advanced wind solutions, etc..

This course is specifically designed for law enforcement officers who are newly assigned, aspiring, or prospective snipers within their agency's tactical, SWAT, or precision engagement teams. It is ideal for:

- Beginner-level law enforcement snipers with limited or no formal sniper training.
- Designated marksmen transitioning into dedicated sniper roles.
- Tactical team members tasked with precision shooting responsibilities in rural, urban, or mixed terrain environments.
- Agencies seeking to develop in-house sniper capabilities by establishing a standardized baseline of competency and skill.
- Officers who need a practical, equipment-focused introduction to sniper fundamentals including rifle setup, ballistics, and fieldcraft.
- Departments preparing personnel for our advanced sniper courses by first building strong foundational knowledge.

***This course is not suitable for civilians or hobbyists and is limited to active or reserve law enforcement personnel. Agency verification is required prior to enrollment.**
