

LAW ENFORCEMENT SNIPER COURSE CERTIFICATION

High Angle Shooting - High Angle Sniper Operations Course

Price: \$350 USD

Dates: June 12th, 2025

Meeting Location: Rexburg Police Training Center
425 N 5th West, Rexburg, ID

Times: 07:00 - 18:00

For payment, please reach out to [Rangetech.us](https://rangetech.us) directly at rangetechus@gmail.com or visit our website at rangetech.us.

Course Objectives:

- **High Angle Shooting Techniques:** Students will learn specialized techniques for making high-angle shots from various positions, including prone, tripod, kneeling, and sitting.
- **Fundamentals of High Angle Shooting:** The Industry Level 2 LE High Angle Specialty Sniper course will introduce students to the basics of shooting at high angles, both downhill and uphill.
- **Precision Shooting Fundamentals:** Students will master precision shooting techniques at angles ranging from 10-45 degrees, with distances from 25 meters to approximately 1000 meters.
- **Firing Solutions:** Students will learn how to tune firing solutions for specific angles encountered in both urban and rural environments. This includes manual adjustments and using Kestrel Ballistic solvers.
- **Environmental Limitations:** Students will learn to recognize and adjust for environmental limitations and new wind behaviors that affect shooting at high angles.
- **Tripod Shooting:** Students will practice shooting from a tripod in various positions, including hasty setups.
- **Versatile Shooting Positions:** Students will develop skills for shooting from kneeling, sitting, standing, improvised, and hasty positions.
- **Fieldcraft Effects:** Students will understand the basic effects of high-angle shooting positions on fieldcraft.
- Pre-requisite Level 1 Sniper Certification Course
