

POLICE AND CRIME SCENE PHOTOGRAPHY

Location: Latah County Fairgrounds
Hosted by: Latah County Sheriff's Office
1021 Harold Street, Moscow, ID 83843

April 16-17, 2026 8:00am-4:00pm

Who should attend: **Seminar is appropriate for police and fire personnel - crime scene technicians OR detectives & police personnel without dedicated crime scene support.**

This training introduces participants to essential camera equipment, maintenance practices, and the core principles of exposure, sequencing, composition, and lighting. Instruction covers crime scene, crash, and injury photography, along with advanced techniques such as laser trajectory documentation, fluorescence imaging, and painting with light, while reinforcing chain-of-custody and courtroom admissibility.

Topics Include:

- Camera equipment, camera hardware, camera software, maintenance
- Principles of exposure, sequencing, composition, flash photography, ambient light photography
- General crime scene photography, crash photography, photographing injuries
- Laser trajectory photography, photographing fluorescence, painting with light
- Multiple flash photography
- Footwear and toolmark impression photography
- Chain of custody
- Impact of photographs as evidence
- Courtroom testimony and many more subtopics

Fee: \$375.00 (high-quality materials, presentations, and fees included)
(\$350.00 if 3 or more from same agency)
