Real World Training for Women in Law Enforcement

“The Winning Mind for Women” is one of the most unique and popular courses offered in the market today. Veteran instructor Sgt. Betsy Smith (ret.), the creator of the original “Street Survival for Women,” guides students through 8 hours of intensive, interactive training that will provide attendees with updates and information they can employ to improve and enhance both their professional and personal lives. We begin each session by honoring the sacrifices of our fallen, celebrating the law enforcement profession and asking each attendee to inwardly assess their own career. We define a true “**Winning Mindset**” as we talk about the history of women in policing and celebrate our winners and role models. We then introduce gender-specific science and leadership principles that anyone can use to enhance their career and improve their life on and off the job. The multi-media format keeps students engaged and entertained while we provide officers, agents, dispatchers, trainers, supervisors, managers and all other personnel with a realistic view of gender differences and how these can be harnessed in both men and women to improve performance, morale, communication, health, relationships, and especially officer safety. Visit www.femaleforces.com or call **847-875-3620** for group discounts or to host.

We'll Talk About:

- Understanding the true nature of the **Winning Mindset** regardless of career path
- Why the term “survival” is minimalistic and we must train to **WIN!**
- How to leave behind the “victim-based” mentality
- Bringing the “**NOT TODAY!**” mindset to everything you do!
- Recognizing and taking advantage of “**Gender Intelligence**”
- How **Fitness and Nutrition** affect all aspects of your life, health and career
- Learning to communicate effectively with **everyone** in your agency and beyond
- Embracing **responsibility** for your own tactics, training, safety and success!
- How to Train for **Off Duty Encounters** and Improve Your Family's Safety
- Understanding the **threats** law enforcement personnel face in today's society
- Learning to “**lead**” regardless of your assignment or tenure
- How to increase your awareness & overcome the deadly effects of “**ROUTINE**”
- Assessing the risk of “**officer ambush**” and how to prevent it
- How to bring real world **OPTIMISM** to your **Law Enforcement** career
- **AND SO MUCH MORE!**
