

EVOC INSTRUCTOR TRAINING

29 APRIL 2022

This course will introduce EVOC Instructors to the EASYDRIFT Driver Training System (DTS). EASYDRIFT is a completely new and revolutionary product that was primarily designed to save lives, by teaching people the physics of driving. EASYDRIFT is a new concept that replicates very low grip conditions without altering the vehicle's dynamics. The patented EASYDRIFT Driver Training System is composed of a specific designed ring that slides over the tire. It is made of a very high-tech nylon-based polymer.
