

ALERRT

Active Attack Integrated Response Course (AAIR) Train-the-Trainer

**There is no charge for this training.
It is funded through state and federal grants.**

Time: 5 days (40 hours)

Class Size: 24 students, 16 LE from multiple agencies, 8 Fire / EMS, and 2 Dispatch per class

Prerequisite: Participants must be state-certified law enforcement, fire, Tele-communicator or EMS providers. EMS providers should be EMT-B certified (preferably EMT-I or EMT-P).

Required Equipment: Pen and paper, duty gear, body armor, groin protection, and appropriate clothing for "force-on-force" training (long sleeve shirt, gloves, etc.) Head, eye, and throat protection will be provided. A laptop or tablet is strongly suggested for reviewing course materials in preparation for the teach back portion of the course.

Participants are responsible for their own transportation and lodging.

The AAIR T3 is designed to improve integration between law enforcement, fire, tele-communicator and EMS in active attack / shooter events. The course provides law enforcement officers with key medical skills based on tactical emergency casualty care guidelines, which can be used at the point of injury to increase survivability of victims.

The course also provides a model framework for law enforcement, fire, and EMS to integrate responses during an active attack / shooter event through the rescue task force concept.

This course has been designed to improve the safety and survivability of victims of active attack / shooter events and increase the effectiveness, coordination, and resource integration between law enforcement, fire, tele-communications and EMS when responding to these events.
